## AWOKE TO FIND \$250 LAND WORTH \$250,000

Beverly, Mass., Workman Made Wealthy  
by Chance Investment in Barren  
Waste That Turned to Rich  
Oil Gusher.

Beverly, Mass., Nov. 24.—Theodore E. Davis, a machinist in the United Shoe Machinery company's plant at \$15 per week, yesterday deposited a check for \$250,000 to his own credit in a local bank, the check having been sent to him by the Standard Oil company for land which he bought 12 years ago for \$250.

Yesterday for the first time since he came here five months ago, he is not working on a week day. He has given up his place here, and is preparing to take his wife and two-month-old baby girl to his old home in Nashville, Tenn. Later he will go abroad for pleasure.

Davis is thirty-six years old and lives

in a small cottage at No. 78 Mackay street. In 1884 he was knocking about in the West, a single man. He secured a piece of land in Frankfort, Ind., taking a mortgage on it. He did nothing with it later, but pay taxes on it. He tried unsuccessfully to get rid of it. He enlisted with company A, 13th U. S. Regulars, in the Spanish war, fought at San Juan and other battles, was shot three times and was honorably discharged.

Five years ago he paid taxes on the land and again tried to get rid of it. He wanted the widow of the farmer from whom he bought it to take it back, but she didn't want it.

Meanwhile, the Standard Oil company had been trying vainly to find Davis. It wanted the land. Five months ago, when he came here, Davis, in much disgust, paid five years' back taxes on the land. Then the Standard secured trace of him. He received a letter from the oil company asking him to sell.

Davis wrote to an Indiana lawyer to look into the matter. The lawyer from the oil company had gone ahead sinking oil wells on the land. Oil was being

taken out. The lawyer secured an offer of \$250,000 cash for the property, which Davis accepted. Wednesday the check came. Thursday he put it into the bank.

### WELCOMES KING OF GREECE.

Crowds Cheer Two Sovereigns — More Anarchists Arrested.

Rome, Nov. 24.—King George of Greece was welcomed at the railroad station here yesterday by King Victor Emmanuel, Premier Giolitti, Foreign Minister Tittoni, the Marquis Visconti-Venosta, the ex-foreign minister, and all the other dignitaries of state. Accompanied by King Victor Emmanuel, King George then drove to the palace, escorted by a detachment of cuirassiers.

The route to the palace was beautifully decorated with the Green and Italian colors, while the Stars and Stripes was displayed from the houses of the American residents. The two sovereigns were warmly acclaimed by throngs of people.

A large group of Garibaldians, in their traditional red shirts, made an enthusiastic demonstration in honor of the royal visitor.

The police Thursday night and yesterday morning arrested more anarchist suspects.

## PRIDE CAUSES HIGH PRICES

A New Theory by a Census Statistician

### BEST OF EVERYTHING

Is Demanded by Workingmen—Earnings of Railroads Rapidly Increasing—More Ships Urged by the Commissioner of Navigation

Washington, Nov. 24.—Pride and vanity on the part of the average individual, rather than an increase in the cost of raw products or manufacture, are the causes for the present high prices of foodstuffs, according to Dr. Le Grand Powers, agricultural statistician of the census bureau.

"People nowadays—I mean the average people, common people, if you will—insist upon having the best of everything," said Dr. Powers. "The workingman insists upon the finest cuts of meat, and he buys better meat, perhaps, than the salaried or professional man. He has a feeling that he is as good as anybody else, and this feeling asserts itself in his purchases. That is vanity. You remember the time, perhaps, when a man who wanted to buy a steak threw his basket over his arm and went to the grocery after it. But he won't carry a bundle now. His meat must be sent to him. That is pride. It is safe to estimate that it costs five cents per steak for every cut that is delivered to a house. The same is true with other commodities of everyday necessity. The man whose food is delivered to him by the green grocer or the butcher pays the freight."

"People want prepared breakfast foods now where they used to be satisfied with oatmeal and mush, or dishes or cakes made of flour. A barrel of flour sells anywhere from \$4 to \$6 for a barrel of 196 pounds, according to the price of wheat, but people do not buy barrels of flour as of yore. The flour that goes into a one-pound package costs about a quarter of a cent. The consumer pays much more of course. The price for this one-pound package is higher than it ought to be. It probably costs eight or ten cents, when it should not cost more than five or six. The higher price to the consumer is the result of the fancy package, demanded by widely spreading national vanity, and further to the fact that the article must be delivered, a service that is demanded by the pride of the purchaser."

Pretty hair is a necessary aid to attractiveness, and every woman can have pretty hair if she will make an intelligent endeavor in that direction.

Neglect of the hair is the greatest enemy of hair beauty, and those who continue to practice neglect seldom fall to lose attractiveness.

Just as soon as the natural glossiness of the hair begins to fade, it shows that there is trouble in the scalp and that dandruff, brittleness and interstices of the hair will come and be followed by dandruff, itching scalp and falling hair.

An invisible vegetable growth (the dandruff germ) in the scalp causes dandruff, and the disease is both contagious and progressive.

It requires prompt and continued attention to overcome it and keep it out of the scalp. Newbro's Herpicide will accomplish all this when it is used intelligently. ## ENRICO CARUSO FOUND GUILTY

Great Tenor Found Guilty of  
Annoying Women

### IN CENTRAL PARK "ZOO"

Is Fined \$10—Police Commissioner Mathot, in Summing Up Case, Declared That the Great Tenor is a Moral Pervert

New York, Nov. 24.—Magistrate Baker found Enrico Caruso, the grand opera tenor, guilty of annoying Mrs. Hannah Graham and two young girls in the monkey house at Central Park, and fined Caruso \$10 for the offense, late yesterday afternoon.

Mrs. Graham, the complainant against Caruso, did not appear to press the complaint against the defendant today. Deputy Police Commissioner Mathot in informing the court that Mrs. Graham would not be present said:

"I received information as to the identity of the woman known as Hannah Graham and expected to have her in court, but learned that she has now left the jurisdiction of this court and I am unable to produce her today."

Ex-Judge Dittenhofer, Caruso's counsel protested against such an explanation being made to the court and declared that he did not believe there was any such woman as Hannah Graham, unless perhaps it was a woman who in this case, is a confederate of Officer Cain.

Deputy Police Commissioner Mathot in his argument against Caruso declared that Caruso was a moral pervert who should be kept out of decent society.

Mr. Mathot said that the reason why Hannah Graham had not appeared in court was that she feared to face a crowd of perverts such as commonly attend such a hearing and such a crowd as was then present. The spectators in the court room hissed Mathot at this remark.

### GOT 10 P. C. INCREASE.

Fall River Owners Cited by Action of M. C. D. Borden.

Fall River, Mass., Nov. 24.—Fall River's cotton mill employees won a battle for an increase in wages yesterday, and next Monday thirty thousand operatives will come under a scale giving them 10 per cent. more than the present rate.

The granting of the advance prevented a strike, the workmen having voted last night to stop work in all the mills next Monday if the demand was not granted. M. C. D. Borden, the independent manufacturer, employing five thousand operatives, took the lead by announcing that the wages in his mills would be raised 10 per cent. No demand had been made upon the proprietor of the Fall River Iron Works Mills, and his action practically forced the other mill managers to grant the increase.

### BRITISH RULE FOR ALL.

London, Nov. 24.—The House of Commons Thursday night passed without a division the third reading of the merchants' shipping bill. ### \$4,000,000 STILL UNUSED.

What to Do With Remainder of Frisco Relief Fund a Problem.

San Francisco, Nov. 24.—Four million dollars is still on hand to be devoted to the relief of the earthquake refugees,

and the relief committee has had several executive meetings to determine what to do with this money. It is said that the need of relief has passed, except for such cases as can be taken care of by the permanent charitable associations.

Allan Pollok favors establishing a two-million-dollar hospital with a part of the fund which Herbert B. Law would turn over to the regular charity organizations. As the wishes of the donors of the relief funds may have to be consulted, no decision has as yet been arrived at by the committee.
